-"A park, a park-my kingdom for a park!" Winston needs one. In less than ITEMS OF NEWS FROM NEAR - BY ten years we expect to have 25,000 people in our town and now is the time to think of these things, before all available laud i covered with houses. There are several charming localities, among them one might be found in the beautiful g rove on the subarbs of East Winston. Very little time and expense would it require to make this a lovely and desirable spot for our people o visit. We would be glad to see a move in this direction on the part of the town.

Our City Moving Steadily Forward,

Brick by brick, Winston is moving. To day they are putting up the door frames and ron columns of Messrs. Vaughn & Pepper's new building. Judge Wilson's new prize room is almost completed, Mr. J. C. Buxton and the Messrs Hanes will erect brick buildings adjoining Vaughn & Pepper's and all ver our city new buildings are constantly going up. We have faith in what a gentle man said the other day: "I believe Winston and Salem is just on the eve of a big boom. I believe she will grow faster than she ever has and before long she will be a railroad Greensboro to Washing City in the near fucentre, with over twenty-five thousand peo-

A Progressive Twin-City Industry.

A place of interest is the North Carolina Furniture Factory, occupying the second and third stories of the Salem Iron Works. It is operated by Messrs. R. Stevens and C. A. Hege. The latter gentleman planned and made many of the intricate machines used in the factory and the whole establishment is a monument of North Carolina pluck, energy and brains. The different departments are supervised by skilled foremen and the work turned out is equal to anything in Yankee-land of the same price.

THE SENTINEL reporter returns thanks to Mr. W. G. Bahnson for his courteous exhibition of the works. Success to you gensionary of the Evangelical Lutheran Syn- NEL and may "uneasy lie the head" of any od of North Carolina, will preach in the Twin-City man who shall hereafter sleep or

### Mr. J. W. Reed Takes "French Leave."

We have to chronicle the sudden leaving, under a cloud, of Mr. J. W. Reed, President of the Winston Tobacco Manufacturing Co. He left last Saturday morning and, before value \$4,000, and other personal property for the benefit of his relatives, and the folgust 22nd. Read the advertisement of Trinlowing parties: Col. J. W. Alspaugh, Gen. J. F. Poindexter, David Reid and J. P.

Crews. The Daily says: "The present financial status of the con pany is not known, as Mr. Reed had the entire financial and business control of it. The charter allowed a capital stock of \$17,-000, \$13,000 of which had been paid in. In January last the balance sheet showed an accumulated profit of \$20,000, this with the original stock making \$33,000. We learn

the \$16,000 liabilities then existing have not seen materially reduced since that time.' Mr. Reed wrote to Mr. J. W. Goslen. from Washington City, giving him the combination of the safe and saying the money, found in the safe. Upon opening it, only a small amount of money was found and the books are said to be in a tangled condition. The indebtedness of the company is between \$15,000 and \$20,000, the assets in sight between \$20,000 and \$25,000. The debts will be paid but the stockholders will probably this. Luck to you. not realize much. The company had their faith somewhat shaken in Mr. Reed sometime ago and decided in May not to operate the factory this year. Public belief is that Mr. Reid will not return to Winston, though few think he could have carried off

Our farmers are now busy, harvesting the beautiful crops, and they are excellent all around us. Wheat and oats couldn't be better and if we have a continuance of the good season we will have a bigger corn crop than for years. Our farmers have already found out that it will pay them much better to raise their own meat and bread than to have their corn-cribs and smoke houses in the West, at the same time hauling their tobacco 30 or 40 miles and then getting onbooks and papers of the company would be ly \$1.00 or \$2.00 per hundred. The tobacco crop looks shabby and we will not raise nore fruit than enough for home use. Sickness is among us, especially among small children. As we rarely see anything from this community in your valuable paper I hope its many readers will appreciate

The present session of the Normal School is well attended and the teachers present are reaping great benefit from the good sound practical teachings of the very excellent corps of instructors-the best Normal School Faculty we have as yet had in Winston. Supt. Tomlinson is to be congratulated on the wise selections he made. for in his coadjutors, consisting of Profs. Johnson, Blair, Cobb, Little and Miss Bonham, he has found teachers specially gifted and fitted each for the particular work he has in hand.

Miss Bonham's room is the center of attraction each day from half past ten to eleven. Here, by methods put into actual practice, are illustrated the leading principles of primary teaching. After the daily exercise in this department, the subject under consideration is open to teachers for criticism, discussion, propounding of ques-tions, &c., but Miss Bonham covers the ground so plainly and so thoroughly that

no room is left for discussion and criticism. Prof. Robt. Houston, the distinguished elocutionist of New York City, so popular in Wir.ston two years ago, arrives to to-day, and, we are glad to learn, will take a prominent part in a grand entertainment that is now being arranged for Thursday night of next week. The Salem Orchestra will furnish the music for the occasion and are getting up an especially fine musical program. This entertainment, upon which great care and preparation are being bestowed, will be given at the Opera House, and, we take it, Singer Sewing Machine Co. is here both on | will be the event of the summer season for pleasure and business. | Winston and Salem. ### OUR LOAFER,

He Hears People Talk and Prints What They Say About Important Matters,

"What do you consider the outlook for the Mocksville Railroad?" I asked Mr. J. C. Conrad. "I believe it will be built. The Richmond and Danville system wants to renew its lease on the N. C. R. R. They are not certain of it and, I think, will undoubtedly build this road, so that in the event of failing on the renewal of their lease, they will have an outlet." "Suppose they get the lease?" "They can operate both roads to advantage and I think they are going right to work and push this road through."

"Our town needs a sewerage system and needs it badly, a town with water-works but without sewerage is in a bad condition for health," said Mr. J. L. Ludlow, City En-

Apropos of the above, I heard a physician remark : "It is a great wonder we don't have more fever here than we do-the city its cleanliness -- attention in that direction is badly needed."

"That Roanoke & Southern road will be built-I haven't a doubt of it," said Mr. C B. Watson. "We all believe it, the construction company is thoroughly reliable, has sent representatives over the route, is well pleased with it, and I regard the Roanoke and Southern Railroad as an early certainty," was the good news Mr. George W. Hinshaw had to tell me.

"What about street cars?" was the question I put to a prominent manufacturer. "Well we are in no hurry to build-we want to see whether or not it pays in other North Carolina towns before we venture, but if it does pay I believe we'll have an electric railway within a year."

"Good for old Wilkes, she did the best thing she could have done for herself in voting that railroad subscription," wrote Mr. R. N. Hackett, a Wilkesboro man, now ın California.

"There's no doubt about it, you've got the finest town in North Carolina," was the remark one of the staunchest of Durham men made to me the other day.

It was told me this week that a company will soon be formed in Winston for manufacturing ice. The company wishes to begin operations next winter.

## GOSSIP FROM GREENSBORO

Breezy Batch of News from the "City of Flowers."

W. Ogburn who returned from Asheville Saturday night informs us that there are not half the visitors there at present that are usually there at this season of the year. Scarcity of money is the reason assigned. A number of Prohibitionists met here

Saturday in Benbow Hall for the further organization of THE THIRD PARTY in North Carolina. Dr. D. W. C. Benbow was chairman of the Convention and meas ures were taken to organize thirty counties

in the State and a chairman of each county was appointd. Messrs E. M. Caldeleugh & Rro, of this city are operating a gold deposit four miles from Thomasville which is yielding very flattering indications. The ore now taken from the mine yields \$30 to the ton and the proportion is constantly increasing. Experts who have analyzed the ore are of the opinion that it will prove one of the mos

valuable claims in the State. The Guilford Battle Ground Company recently incorporated for the purpose of improving that spot of historic association,

THE GUILFORD BATTLE GROUND four miles north of Greensboro are meeting with very deserved success in this affair. Messrs McGalliard and Huske, granite dealers of Kernersville, have just presented a beautiful monument to be erected at the spot. Messrs. Mendenhall & McNairy have contributed a handsome bill of lumber, and Mr. D. N. Kirkpatrick, the brick with which to construct a Lodge House. When the arrangements are all completed the place will probably be a popular resort. Eight street cars tagges to Durham for

the Durham Street Railway passed through here this morning. I understand the Fire Company of this city contemplate running an excursion to Winston at an early date, having been invited by the Winston Company to visit

them and join in a friendly contest. Mr. Editor, I wish you would let us know what Winston is going to do about the Fruit Fair that was to have been held there this summer. I have heard a good many people inquiring about it but nobody can tell anything definite with regard to it, and the time is drawing very near. If you will have the fair, Greensboro will send a good attendance. G.O. A.

## The Hair May Be Preserved

To an advanced age, in its youthful freshness, abundance, and color, by the use of Ayer's Hair Vigor. When the hair is weak, thin, and falling, this preparation

will strengthen it, and improve its growth. Some time ago my wife's hair began to come out quite freely. She used two bottles of Ayer's Hair Vigor, which not only prevented baldness, but also stimulated an entirely new and vigorous growth of hair. I am ready to certify to this statement before a justice of the peace.—H. Hulsebus, Lewisburg, Iowa.

On time ago my hair began to fall out. It became thin and lifeless, and I was certain I should be bald in a short time. I began to use Ayer's Hair Vigor. One bottle of this preparation caused my hair to grow again, and it is now as abundant and vigorous as ever.—C. E. Sweet, Gloucester, Mass. On two occasions, during the past twenty years, a humor in the scalp caused my hair to fall out. Each time, I used Ayer's Hair Vigor and with gratifying results. This preparation checked the hair from falling, stimulated its growth, and healed the humors, rendering my scalp clean and healthy.—T. P. Drummond, Charlestown, Va.
